The journal adopts an **Open Access policy** which makes the articles freely accessible online immediately upon publication. With this policy, the journal can reach a broader spectrum of readership by removing the limitations caused by financial hardship that some individual readers and libraries may experience. With many renowned scholars from more than 30 countries on our editorial board and an efficient manuscript management system, we offer fast review and decision making procedures and publish papers online immediately after they are accepted. The journal is currently indexed by **Chemical Abstracts**, **CAB Abstracts** & **CABI**, and will soon be indexed by **EI** and **SCI**. It is also listed by Open J-Gate (openj-gate.com) and Directory of Open Access Journals (doaj.org).

The Editorial Board would like to invite article submissions from all researchers working at the forefront of agricultural, biological, and food engineering areas.

Topics include but not limited to

- Power & Machinery System (PMS)
- Bio-environmental Engineering (BEE)
- Renewable Energy System (RES)
- Agro-product & Food Processing Engineering (AFPE)
- Land & Water Engineering (LWE)
- Information & Electrical Technologies (IET)
- Emerging Science, Engineering & Technologies (ESET)

Types of Submissions

- Research Articles
- Reviews
- Perspectives
- Commentaries
- Brief Communications
- Book and Media Reviews
- Corrections
- Correspondences

★ Convenient Online Submission

★ Fast Review and Decision

★ Free Color for Online Publication

★ Free Online Access Globally
